FUTURE FACTORY

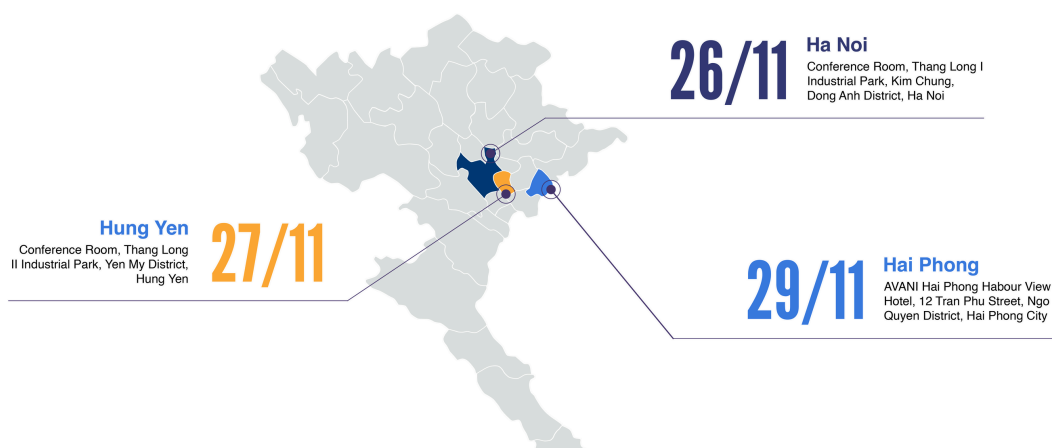

Innovations in Test and Measurement

REGISTER NOW

As manufacturing progresses in the era of automation, precision, and data-driven insights, it is crucial to remain at the forefront with innovative solutions that guarantee efficiency and quality.

Nihon Denkei Vietnam collaborates with leading Japanese suppliers to host the exhibition series “Future Factory: Innovations in Test and Measurement” across four cities: Ha Noi, Hung Yen, Hai Phong, and Binh Duong. Whether you're in search of cutting-edge testing equipment, or advanced measurement tools, this exhibition provides an extensive overview of the future of manufacturing technology.
